TFO Terms and Conditions of Service

Dear Stakeholder:

Re: TFO Terms and Conditions of Service Consultation

In the Alberta Electric System Operator's (AESO) efforts to keep all stakeholders informed about its activities, the AESO is providing an update on a consultation that is underway with Alberta's Transmission Facility Owners (TFOs).

On April 25, 2005, the AESO contacted all TFOs to propose a review of all TFO Terms and Conditions of Service (Ts&Cs) with a goal of establishing a level of consistency amongst these Ts&Cs and to reflect developments that have occurred in the electricity industry since 2003.

An initial meeting to discuss the AESO's proposed Ts&Cs changes with all TFOs in early October. This consultation process is expected to be completed by the end of 2005.

During the consultation process, other stakeholders will be given an opportunity, should they wish, to comment on changes proposed by the AESO. All comments provided by all parties will be posted on the AESO's website.

A copy of this letter and subsequent material from this consultation process will be available on the AESO's website at www.aeso.ca by following the path Quick Links ► Current Regulatory Activities, in the "TFO Terms and Conditions of Service Consultation" section.

If you have any comments or questions on this process, please contact me at (403) 539-2468 or randeep.nota@aeso.ca, or Ed Hucman at (403) 539-2469 or ed.hucman@aeso.ca.

Yours truly,
