In response to the AESO letter dated October 30, 2008 respecting the AESO Recommendation Paper – Rule 6.6 Review, the Office of the Utilities Consumer Advocate (UCA) provides the following comments.

The UCA has collaborated with other load entities, namely the Independent Power Consumers Association of Alberta (IPCAA) and the Alberta Direct Connect Consumers Association (ADC) in reviewing the AESO Recommendation Paper and in developing comments on this matter.

The UCA agrees with and supports the comments contained in the stakeholder comment matrix filed by IPCAA on November 18, 2008.

Should the AESO determine that an additional round of consultation be necessary in this matter, the UCA may provide additional comment at that time.
