

# Preliminary Draft for Information Purposes Only

## Transmission Must Run (TMR) and Dispatch Down Service (DDS)

- Total DDS costs were \$10 million or \$0.50/MWh in hours DDS was used
- The estimated DDS impact on pool price averaged \$7.23/MWh when DDS was used, and \$5.35/MWh over all hours
- The DDS market appears to be operating as expected although improvements have been suggested to increase participation
