Dear Participant:

**Re: Meeting for Detailed Review of *Transmission O&M Cost Study*
Filed as Part of AESO 2010 ISO Tariff Application
Application No. 1605961 and Proceeding ID 530**

At yesterday's technical meeting on the AESO's 2010 ISO tariff application, participants requested an opportunity for a more detailed review of the *Electric Transmission Operating and Maintenance Cost Study* ("*Transmission O&M Cost Study*") and associated workbook filed as appendices to the application. The AESO proposes the following meeting for that review.

Time: 1:30 to 3:30 PM
Date: Monday, March 29, 2010
Location: AESO 2537 Meeting Room, 25th Floor
330 – 5th Avenue SW, Calgary, Alberta
Refreshments: Beverages and snacks will be provided
Registration: Please register your attendance at this meeting with Ghaz Marinho by email to ghaz.marinho@aeso.ca or by phone to 403-539-2474, by 5:00 PM on Friday, March 26, 2010, to ensure space is available

This meeting will provide an opportunity for detailed questions on the following aspects of the *Transmission O&M Cost Study*:

- functionalization of operating and maintenance costs;
- classification of operating and maintenance costs; and
- calculation of the prepaid operating and maintenance charge.

The meeting is intended for participants who are registered in the AESO's 2010 ISO tariff application proceeding and who expect to explore the above aspects of the *Transmission O&M Cost Study* in detail during the proceeding. Participants who attend the meeting are expected to have reviewed and be familiar with the *Transmission O&M Cost Study* and the associated workbook, filed as Appendices C and D to the application.

The two appendices as well as other information related to the 2010 ISO tariff application are posted on the AESO's website at www.aeso.ca, and may be found by following the path
