

July 26, 2010

Dear Market Participants and Interested Parties:

- Re: Stakeholder Comments on Letter of Notice – North American Electric Reliability Corporation (“NERC”) Modeling, Data and Analysis (“MOD”), Interconnection Reliability Operations and Coordination (“IRO”) and Personnel Performance, Training, and Qualifications (“PER”) Reliability Standards Proposed for Rejection as Alberta Reliability Standards:**
- a) MOD-011-0 Maintenance and Distribution of Steady-State Data Requirements and Reporting Procedures;**
  - b) MOD-028-1 Area Interchange Methodology**
  - c) MOD-030-1 Flowgate Methodology**
  - d) IRO-004-2 Reliability Coordination Operations Planning; and**
  - e) PER-002-0 Operating Personnel Training (collectively the “NERC Standards”)**

Comments received from stakeholders in response to the Alberta Electric System Operator’s (“AESO”) [Letter of Notice](#) of June 17, 2010 for the NERC Standards have been posted on the AESO website.

The following table is hyperlinked to provide assistance in directing you to these written comments for each NERC Standard.

<b>Proposed Reliability Standards</b>
<a href="#">ENMAX Power Corporation</a>

Thank you to all stakeholders who participated in this consultation. The AESO appreciates stakeholder comments and all written comments received will be considered in the AESO’s finalization of the NERC Standards. The AESO intends to finalize the NERC Standards for filing with the AUC in August, 2010.

The AESO’s replies to these stakeholder comments and resulting amendments to the NERC Standards, if any, will be published on the AESO website in the near future.

Yours sincerely,
