

Disturbance Monitoring Equipment Locations

1. Related Document

In accordance with Alberta Reliability Standard PRC-018-AB-1 *Disturbance Monitoring Equipment Installation and Data Reporting*, the following list identifies the applicable disturbance monitoring equipment (DME) locations.

2. Disturbance Monitoring Equipment Locations

DME Location	Owner	Type	Effective Date
Langdon 102S	Altalink	PMU	June 14/11
Empress 394S	Altalink	PMU	June 14/11
Sundance 310P	Altalink	PMU	June 14/11
Ruth Lake 848S	ATCO	PMU	June 14/11

3. Amending Procedures

The ISO will:

- upon determining that a new disturbance monitor location is to be added to the list of DME locations, notify the affected party and determine a date by which a new disturbance monitor will be installed; and
- post the amended list of DMEs on the AESO website.

4. Revision History

Effective Date	Description of Changes
yyyy-mm-dd	Original list of DME locations
