

Energy Market

Customer Service – Energy Market Team – will be holding a training session on the Energy Trading System (“ETS”) for those participants that wish to gain a better understanding of ETS. Topics to cover include;

- 5MW variance and dispatch rule,
- Total Declared Energy (“TDE”),
- supply shortfall energy,
- day-ahead submissions and standing submissions,
- energy restatements,
- locking restatements,
- ADaMS, and
- digital certificates.

Please RSVP to Marina Jagbandhansingh at mjagbandhansingh@aeso.ca by June 11, 2007.

The session will be scheduled for Thursday June 14, 2007 from 9:00 – 11:00 a.m.
