

Sandra Scott

Senior Vice-President, Corporate Services and Chief Information Officer

Sandra Scott was appointed Senior Vice-President and CIO for the Alberta Electric System Operator (AESO) in January 2009. In her role, Ms. Scott oversees Information Technology (IT), Human Resources, strategic planning and organization design and effectiveness. She has previously served as the AESO's Vice-President, Information Technology.

Having worked in the energy sector for 20 years, Ms. Scott's background includes consulting to a variety of companies in the areas of business and IT strategic planning, program and project management, information management, design and implementation of business solutions.

Ms. Scott's career includes five years with AGTI Consulting Services where as the Calgary Managing Partner she maintained overall business leadership and bottom line responsibility including client management, resourcing and delivery functions.

Prior to AGTI, Ms. Scott was Vice-President at QC Data Ltd., responsible for information technology and operations management across a wide variety of international business units for 13 years.

Ms. Scott holds a Bachelor of Science degree with a major in Geology from the University of Calgary. She has been an active member of the Computer Information Processing Society (CIPS) holding a number of positions on the Calgary Chapter Executive Committee.

As an independent system operator, the AESO leads the safe, reliable and economic planning and operation of Alberta's interconnected power system. The AESO also facilitates Alberta's fair, efficient and openly competitive wholesale electricity market, which in 2010 had about 175 participants and approximately \$5 billion in annual energy transactions.
