

September 3, 2008

Dear Stakeholders,

I'd like to take this opportunity to thank all stakeholders who attended our consultation session at the Westin Hotel in Calgary earlier today. Please [click here](#) to view the presentation from today's session.

We will compile all the questions and comments from the meeting as well as additional comments submitted to Karissa.pilkington@aeso.ca by September 17, 2008 in a comment and response matrix.

If you are a subscriber to our weekly e-mail newsletter, you'll receive a notice when these documents are posted to the respective project areas on the website.

We will carefully consider of all the questions and comments received and we appreciate the time and effort stakeholders take to provide their thoughtful input.

We look forward to additional consultation as we continue to move forward with these important transmission system initiatives in the interest of all Albertans.

Thank you
