Dear Stakeholders:

Re: Demand Response Discussion Paper

The AESO has undertaken a stakeholder consultation over the past year via the Demand Response Working Group (DRWG). The purpose of this group was to examine the Alberta electricity market to identify barriers to demand response and discuss options for increasing demand participation in the market. The AESO posted a Demand Response Discussion Paper on October 22nd, 2009 and solicited feedback to that paper through a comment matrix. The AESO has completed its review of the comments. [Click here](#) to view the Comment Response Matrix or it can be viewed at Market > Market Policy Implementation > Demand Response Working Group.

Yours truly,

Kris Aksomitis
