Re: Outage notification to participants for Automated Dispatch and Messaging System (ADaMS)

On April 2nd, 2009, the AESO has scheduled maintenance to our network systems, which will impact the ADaMS. There will be at least two interruptions (approx 15 minutes each) to the ADaMS system, between 12:01AM MDT and 5:00AM MDT, pending any real-time issues.

Notice of outage commencement will be sent through ADaMS, and relevant messages during the outage will be posted to the AIES Event Log on the Alberta Electric System Operator (AESO) website.

During the outage, ADaMS will be out of service, therefore the System Controller will communicate dispatch information to participants via telephone.

We would like to thank participants for their understanding and cooperation during this period. If you have any questions, please call AESOfirstcall at ph: 1.888.588.AESO (2376) during the business hours of 8:00AM MDT – 5:00PM MDT, Monday to Friday.

Sincerely,
