Re: Outage notification to participants for Automated Dispatch and Messaging System (ADaMS)

On Wednesday, August 19th, 2009 starting at approximately 10:15 AM Mountain Daylight Time (MDT) (pending any real time issues), there will be a short interruption to ADaMS, for approximately 15 minutes. This outage is required for maintenance and system enhancements to the AESO's systems.

Additionally, on Friday, August 21, 2009 starting at approximately 10:15 AM MDT (pending any real time issues), there will be a short interruption to ADaMS, for approximately 15 minutes.

Notice of outage commencement will be sent through ADaMS, and relevant messages during the outages will be posted to the AIES Event Log on the Alberta Electric System Operator (AESO) website.

During each outage, ADaMS will be out of service, therefore the System Controller will communicate dispatch information to participants via telephone.

We would like to thank participants for their understanding and cooperation during this period. If you have any questions, please call AESOfirstcall at ph: 1.888.588.AESO (2376) during the business hours of 8:00 AM – 5:00 PM MDT, Monday to Friday.

Sincerely,
