Re: Outage notification to participants for Automated Dispatch and Messaging System (ADaMS)

On Wednesday, December 3rd, 2008 starting at approximately 1:15PM MST (pending any real time issues), there will be a 5 to 15 minute interruption to ADaMS. As well, on Wednesday, Dec 3rd, at 2:15PM MST there will be a 2nd interruption to ADaMS, for approximately 5 to 15 minutes. These outages are required for maintenance and system enhancements to the AESO's systems.

Notice of outage commencement will be sent through ADaMS, and relevant messages during the outage will be posted to the AIES Event Log on the Alberta Electric System Operator (AESO) website.

During the outage, ADaMS will be out of service, therefore the System Controller will communicate dispatch information to participants via telephone.

We would like to thank participants for their understanding and cooperation during this period. If you have any questions, please call AESOfirstcall at ph: 1.888.588.AESO (2376) during the business hours of 8:00 a.m. – 5:00 p.m. MST, Monday to Friday.

Alternatively, you may call the Customer Information Line at ph: 403.214.7508 for recorded updates during planned and unplanned interruptions to AESO systems, 24 hours a day, seven days a week.

Sincerely,
