Dear Stakeholders:

Re: 10-Year Transmission System Plan (2007-2016) Q&A/Comment Matrix and Alberta 10 Year Generation Outlook Report Posting and Stakeholder Consultation Meeting

The AESO would like to take the opportunity to thank stakeholders for their input into the first stage of developing the 10-Year Transmission System Plan (2007-2016). In keeping with our commitment to stakeholders, the AESO has posted the Q&A/comment matrix ([please click here](#)) addressing comments and questions received in response to the Draft AMEC Generation Outlook Report and the initial stakeholder meeting presentation. For convenience, we have also posted the letters received from ATCO Power, EPCOR, TransCanada, and WestWindéau.

Along with the Q&A/Comment matrix, the Alberta 10 Year Generation Outlook report has been posted to the website. ([Please click here](#)). This report will be used as a basis for the system studies prepared for 10-Year Transmission System Plan (2007-2016).

In taking the next steps in the development of this plan, the AESO would like to invite stakeholders to a consultation meeting on November 2, 2006 to discuss preliminary transmission system evaluations. ([please click here to view the detailed agenda](#)) Please RSVP to brandy.eagleson@aeso.ca if you are interested in attending the meeting on or before October 27th, 2006.

The AESO will post a draft report on the preliminary transmission system evaluations before the meeting on November 2, 2006.

If you have any questions regarding any of the above information, please contact me at (403) 539-2697 or via e-mail at bill.strongman@aeso.ca. Alternatively, you can contact Brandy Eagleson at (403) 539-2773 or via e-mail at brandy.eagleson@aeso.ca.

Yours truly,

Bill Strongman, P. Eng.
Director, Regional System Planning
