

LTA Working Group

Meeting Summary – November 23, 2006 1:30 to 3:30 pm – AESO Offices

Attendance:

Colleen Fairhead	AESO	Chris Joy	ENMAX
Gordon Nadeau	AESO	Sian Barraclough	EPCOR
Jeff Nish	AESO	Dan Macnamara	IPCAA
Carrie Haines	ADC	Evan Bahry	IPPSA
Lynn Meyer	AltaGas	Joanna Luong-Tran	TransAlta
Carl Fuchshuber	ATCO	Marcy Cochlan	TransAlta
Norman Mills	BP	Wendell Klassen	TCE
Anne Denman	DOE	Ron Henderson	UCA
Judith Athaide	EnCana (Cogent)		

The purpose of this meeting was to discuss draft 2 of the LTA Discussion Paper that provides a solution that could be considered for LTA.

The group discussed the use of Portable Generation as a possible threshold action. A 2 minute roundtable was provided for any additional comments.

Some general themes of stakeholder comments/concerns include:

- New concern developed on public outage reporting
- Scenario based metrics

Next steps were discussed with the committee. It was agreed to effectively “close” the LTA Committee, unless modifications to document suggest that one more meeting is necessary. An e-mail summary will be provided with changes as a result of AESO internal consultation. Workgroups will be developed to discuss individual topics for LTA implementation, where design details need to be developed further.

Summary of Action Items:

Stakeholders to provide comments on Discussion Paper by Wednesday, November 29th.

AESO to provide a summary of any significant changes to document, prior to public release of AESO recommendation.
