

MOD-016-AB-1.1 Documentation of Data Reporting Requirements for Actual and Forecast Demands, and Net Energy for Load

1. Purpose

The purpose of this *reliability standard* is to ensure the availability of documentation of data reporting requirements for actual and forecast *demands* and *net energy for load* data to support assessment and validation of past events and databases. Forecast *demand* data is needed to allow future *system* assessments to identify the need for *system* reinforcement for continued *reliability*.

2. Applicability

This *reliability standard* applies to:

- *ISO*

3. Definitions

Italicized terms used in this *reliability standard* have the meanings as set out in the Alberta Reliability Standards Glossary of Terms and Part 1 of the ISO Rules.

4. Requirements

R1 The *ISO* must have documentation identifying the scope and details of the actual and forecast (a) *demand* data, and (b) *net energy for load* data, to be reported for *system* modeling and *reliability* analyses.

R1.1 The aggregated and dispersed data submittal requirements must ensure that consistent data is supplied for *reliability standards* TPL-005, TPL-006, MOD-010-AB, MOD-011, MOD-012AB, MOD-013, MOD-014, MOD-015, MOD-016-AB, MOD-017-AB, MOD-018-AB, MOD-019-AB, MOD-020, and MOD-021.

The data submittal requirements must stipulate that each *load* customer's *demand* is counted once and only once, on an aggregated and dispersed basis, in developing its actual and forecast customer *demand* values.

R2 The *ISO* must publish and distribute its documentation required in requirement R1 for reporting customer data and any changes to that documentation.

R2.1 The *ISO* must make this publication and distribution within 30 calendar *days* of a revision being approved by the *ISO*.

5. Processes and Procedures

No procedures have been defined for this *reliability standard*.

6. Measures

The following measures correspond to the requirements identified in Section 4 of this *reliability standard*. For example, MR1 is the measure for R1.

MOD-016-AB-1.1 Documentation of Data Reporting Requirements for Actual and Forecast Demands, and Net Energy for Load

MR1 Written document(s) exist and include contents as specified in requirement R1.

MR1.1 Written documentation exists and includes content as specified in requirement R1.1.

MR2 Evidence exists and shows that documents were published and distributed as specified in requirement R2.

MR2.1 Confirmation exists and shows that documents distributed within the timelines as specified in requirement R2.1.

7. Appendices

No appendices have been defined for this *reliability standard*.

8. Guidelines

No guidelines have been defined for this *reliability standard*.
