

May 27, 2009

Dear Market Participants and Interested Parties:

**Re: Stakeholder Notice regarding posting AESO responses to Stakeholder comments on the Implementation of Market and Operational Framework for Wind Integration in Alberta**

Please be advised that further to the timeline stated in our letter of [May 5, 2009](#), the AESO will be posting its response to stakeholder comments on the AESO Recommendation Paper: Implementation of Market and Operational Framework for Wind Integration in Alberta in early June 2009. The delay is a result of the volume and complexity of comments received from Stakeholders on this matter.

The AESO appreciates your understanding in this regard.

Yours sincerely,
