Re: Outage notification to participants for Automated Dispatch and Messaging System (ADaMS)

On Tuesday, November 24th, 2009 starting at approximately 10:15AM MST (pending any real time issues), there will be a planned interruption to ADaMS, for approximately 20 minutes. This outage is required for maintenance and system enhancements to the AESO's systems.

Notice of outage commencement will be sent through ADaMS, and relevant messages during the outage will be posted to the AIES Event Log on the Alberta Electric System Operator (AESO) website.

During the outage, ADaMS will be out of service, therefore the System Controller will communicate dispatch information to participants via telephone.

We would like to thank participants for their understanding and cooperation during this period. If you have any questions, please call AESOfirstcall at ph: 1.888.588.AESO (2376) during the business hours of 8:00 AM – 5:00 PM MST, Monday to Friday.

Sincerely,
