Re: **AESO Quick Hits Six Month Review**
Rules Comment Matrix

As indicated in our May 29, 2008 [letter](#), the AESO intends to issue a Quick Hits summary report after six months of operating under the new Quick Hits rules implemented in December 2007. The summary report will contain the results of the six month metric analysis outlined in the Quick Hits discussion [paper](#) issued in May on which participants have already provided comment.

Prior to preparing that summary report, the AESO would like to receive stakeholder feedback specifically on the Quick Hits rules and has provided a [comment matrix](#) to assist participants in that regard. To help the AESO in understanding of any stakeholder issue, the AESO requests that the comments identify the problem created by the Quick Hits rule(s) and identify suggestions for an effective solution.

The AESO welcomes feedback on the Quick Hits rules. The AESO summary report will utilize the insights obtained from the metric analysis and the stakeholder feedback to make recommendations for rule changes if required or appropriate.

All market participants and interested parties are encouraged to use the comment matrix provided with this letter to submit specific Quick Hits rule comments to the AESO by June 26, 2008. Please email your completed comment matrix to Gordon.Nadeau@aeso.ca. Should you have any questions regarding this request, please contact Gordon Nadeau at 539-2568.

Yours sincerely,
