

November 26, 2008

Dear Stakeholders,

We'd like to take this opportunity to thank all stakeholders who provided us with their comments and questions on the information we presented at our Sept. 3, 2008 consultation session to discuss the AESO's Consolidated Long-term Transmission System Plan: 20-year Outlook and 10-year Transmission Plan.

All the comments we received have been recorded together with the AESO's responses, on a stakeholder consultation comment and response form. Please [click here](#) to view this document on our website.

We have carefully considered all the questions and comments received and we appreciate the time and effort stakeholders have taken to provide their thoughtful input.

We are moving towards our goal of having the AESO's Consolidated Long-term Plan filed with the Alberta Utilities Commission by yearend 2008. Information about how to order a CD or print copy of the Plan will be available on our website in December.

Yours truly,
