Dear Stakeholders:

Re: 10-Year Transmission System Plan (2007-2016) – Website Postings

In a letter to stakeholders on December 21, 2006 ([please click here](#)), the AESO indicated comments were received on the 10-Year Transmission System Plan (2007-2016) after the submission deadline. A formal response to those comments was not provided on December 20, 2006 however, the comments were taken into consideration while preparing the final report. In keeping with our commitment to stakeholders, the AESO has posted a formal response to those comments. ([please click here](#))

The AESO also received a request from a stakeholder to remove their comments from our website. The AESO has complied with that request and has updated the written comments received ([please click here](#)) as well as the *Stakeholder Questions/Comments and AESO Responses Matrix* ([please click here](#)) with respect to the Stakeholder meeting held on December 4, 2006. The original documents were posted to the website on December 20, 2006.
