

December 21, 2006

Dear Stakeholders:

**Re: 10-Year Transmission System Plan (2007-2016) Stakeholder Questions/Comments and AESO Responses**

In keeping with our commitment to stakeholders, the AESO hosted the third meeting regarding the 10-Year Transmission System Plan on December 4, 2006. The meeting primarily focused on conceptual transmission system upgrades.

Resultant from this meeting, the AESO received written comments from numerous stakeholders ([please click here to view the stakeholder letters](#)) and in response have posted the Stakeholder Questions/Comments and AESO Responses Matrix to the website. ([please click here](#))

The AESO has also received comments from stakeholders after the submission deadline of December 11, 2006. Those comments will also be considered in finalizing the document and a formal response on behalf of the AESO will be posted to the website early in 2007.

The AESO will post the 10-Year Transmission System Plan (2007-2016) to the AESO website in January and paper copies will be made available.

The AESO would like to take this opportunity to thank all stakeholders for their collaboration in developing the second edition of the 10-Year Transmission System Plan and please feel free to contact Brandy Eagleson at (403)539-2773 or via e-mail at [brandy.eagleson@aeso.ca](mailto:brandy.eagleson@aeso.ca) if you have any questions. Alternatively, you may contact me at (403)539-2697 or via e-mail at [bill.strongman@aeso.ca](mailto:bill.strongman@aeso.ca).

Yours truly,
