

June 29, 2010

Dear Stakeholder:

Re: Stakeholder comment matrix for inputs to 2011 Long-term Transmission System Plan

As a follow-up to the 2011 Long-term Transmission System Plan stakeholder consultation session held on Wednesday, June 23, the AESO has posted the [presentation](#) material from that session to our website.

The AESO invites all stakeholders to provide written comments on the information presented at the session in the [comment matrix](#) posted to our website. Stakeholder feedback is due July 23, 2010 to forecast@aeso.ca.

As per regular consultation practices, the AESO is committed to providing our responses to all stakeholder comments within three weeks after the stakeholder comment deadline.

The AESO looks forward to additional industry consultation in the fall of 2010 on the draft transmission development options that will be based on the load and generation baseline and transmission planning assumptions presented in the June 23 session.

If you have any questions, please contact Bill Strongman, Transmission Technical Lead, bill.strongman@aeso.ca, ph: 403-539-2687, LaRhonda Papworth, Supervisor Long Term Load Forecasting, larhonda.papworth@aeso.ca, ph: 403-539-2555 or Nicole LeBlanc, Manager Environment and Technology, nicole.leblanc@aeso.ca, ph: 403-539-2701.

Sincerely,
