

# AESO Reliability Standards Monthly Report

August 2010

## TOP-001 to 003 – Real-Time Operations

### **Purpose:**

Draft 4 of Revised Standards.

### **Current Standards:**

The current standards are TOP-001-1, TOP-002-2, TOP-003-0, TOP-004-1, TOP-005-2, TOP-006-1, TOP-007-0, TOP-008-1 and PER-001-0.

### **Proposed Standards:**

The plan is to consolidate the standards into TOP-001-2, TOP-002-3, TOP-003-1 and TOP-004-2.

TOP-005-2, TOP-006-1, TOP-007-0, TOP-008-1 and PER-001-0 will be retired.

The new standards will eliminate redundancy in the Transmission Operations (TOP) family of standards. As part of this process, the drafting team has made an effort to reorganize the standards and requirements in a more logical manner.

### **Applicability:**

Transmission Operator, Transmission Owner, Balancing Authority, Generator Owner, Generator Operator, Interchange Authority, Load-Serving Entity, Distribution Provider

### **Current Status:**

The proposed standards are posted for comment until September 3.
