

Tony Hladun, Regional Advisor

December 2008

Mr. Tony Hladun is retired with 31 years of engineering experience, including 26 years of senior management experience. For most of his career, Mr. Hladun was involved in consulting with Monenco, NOVA and Emerson, with a focus on pipelines and automation and control. He was Canadian General Manager of an engineering software company, Intergraph, that did work in design and facilities management for various utility clients.

Mr. Hladun is Director of the Battle River Community Foundation. He has been involved with the Rotary Club of Camrose and has served as President of the Calgary chapter of the American Association of Cost Engineers. He was a Director of Teranet, a company that operated the Ontario Land Titles system.

The Alberta Electric System Operator is Canada's first customer-focused exchange for electricity. As an independent system operator, the AESO leads the safe, reliable and economic planning and development of Alberta's interconnected power system. The AESO also facilitates Alberta's competitive wholesale electricity market, which has about 200 participants and approximately \$8 billion in annual energy transactions.
