

## **WECC-0064 - WIT Checkout Confirmation**

**Purpose:**

Draft 1 of the proposed criterion, posted for comment.

**Current Criterion:**

This is a new proposed criterion.

**Proposed Criterion:**

WECC-0064 establishes requirements for the Reliability Assurer to provide an electronic means for Net Scheduled Interchange (NSI) and Net Actual Interchange (NAI) checkout and for Balancing Authorities (BA) to use the electronic checkout as the primary means of documenting completion of checkout for all horizons. It includes some provision for checkout alternatives, pre-checkout requirements, and a requirement for BAs to submit NAI data to the Western Interchange Tool.

**Applicability:**

Balancing Authority, Interchange Authority, Reliability Assurer

**Current Status:**

The criterion was posted for comment until July 30. The AESO did not submit comments.
