Public Information Session about Transmission System Reinforcement in southeast Calgary

The Alberta Electric System Operator (AESO) will host an open house to provide information about an amendment to its South Calgary 69 kV needs application for transmission development in southeast Calgary

The AESO filed a Needs Identification Document (NID) with the Alberta Utilities Commission in spring of 2009. The AESO is amending the study area it showed for this need. This amendment will accommodate alternate routing possibilities for the southeast portion of the transmission development required. The AESO will incorporate any feedback it receives into an amendment that it will file with the Alberta Utilities Commission.

Further information about this amendment will be available at an open house, which the AESO will host at the Glenmore Inn in southeast Calgary, on January 11, 2010, between 4 and 8 pm. AESO staff will be available to answer questions about this amendment.

The map above shows the original area of possible transmission development in south Calgary, as well as a new transmission study area (shown as a grey shaded area) which captures new routing possibilities. The original route, shown as a solid grey line, remains an option.

Please visit our web site, www.aeso.ca for more information, or contact the AESO at 1-888-866-2959 or stakeholder.relations@aeso.ca. More information about this amendment may be found at <http://www.aeso.ca/transmission/17665.html>.

The AESO is committed to protecting your personal privacy in accordance with Alberta's Personal Information Protection Act. Any personal information collected by the AESO with regard to this project may be used to provide you with further information about the project, may be disclosed to the Alberta Utilities Commission (and as a result, may become public), and may also be disclosed to the eligible Transmission Facility Owner(s). If you have any questions about how the AESO will use and disclose your personal information collected with regard to this project, please contact us at 1-888-866-2959 or at stakeholder.relations@aeso.ca.
