Alberta Electric System Operator comments on findings of underground technical feasibility study

CALGARY, ALBERTA (February 24, 2010) - The Alberta Electric System Operator (AESO) will be announcing this afternoon the findings of an underground technical feasibility study it has commissioned. Interested media can arrange for interviews and AESO comments.

Date: February 24, 2010

Time: 1 p.m. - 4 p.m.

Location: Westin Edmonton

One-on-one interviews will be coordinated with Neil Brausen, Senior Planning Advisor at the AESO.

-30-

As an independent system operator, the AESO leads the safe, reliable and economic planning and operation of Alberta's interconnected power system. The AESO also facilitates Alberta's fair, efficient and openly competitive wholesale electricity market, which has about 200 participants and approximately \$9 billion in annual energy transactions.
