

# Cancellation for the Lathom Solar Project Connection in the Bassano area

*The Lathom Solar GP Ltd. (Lathom Solar) request for transmission system access to connect its Lathom Solar Project (Facility) in the Bassano area has been cancelled.*

## BACKGROUND

Starting February 2022, Lathom Solar and AltaLink Management Ltd. began distributing information packages that included the AESO's Need Overview, Lathom Solar Project Connection. The AESO Need Overview included the following transmission developments:

- Add one 138 kilovolt (kV) transmission line to connect the Facility to the existing 138 kV transmission line 853AL in a T-tap configuration.
- Add or modify associated equipment as required for the above transmission developments.

## NEXT STEPS

The above developments are no longer needed and the AESO will not submit an application to the Alberta Utilities Commission.

Information related to the Lathom Solar Project Connection project is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

## WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
