Re: Energy Storage Next Steps

Further to the letter the AESO posted on May 31, 2021 outlining next steps on energy storage ISO rule amendments, the AESO is continuing to work on draft proposed amendments. In light of the Government of Alberta's recent introduction of *Bill 86: Electricity Statutes Amendment Act, 2021*, the AESO is assessing work done to date in order to determine the need for any additional required changes. The AESO does not anticipate having draft proposed amendments ready for stakeholder feedback until Q1 2022.
