Cancellation application

Alberta Utilities Commission

Date: October 28, 2026

Applicant's company name: Alberta Electric System Operator (AESO)

Needs identification document approval cancellation
Cancellation application requirement (CT1) Provide the approval number to be cancelled and the rationale for the cancellation.
Needs Identification Document Approval 30335-D01-2026, issued May 5, 2026. The AESO received and accepted a request from Heidelberg Materials Canada Limited, the market participant, to cancel its system access service request to connect the Edmonton Carbon Capture Utilization and Storage Project. Therefore, the AESO is requesting the cancellation of the associated Needs Identification Document Approval.
Transmission line, substation and other transmission facility cancellation
Cancellation application requirement (CT2) Provide the permit and licence and connection order number (if applicable) to be cancelled.
Cancellation application requirement (CT3) Provide a letter from the independent system operator endorsing the cancellation.
[Please submit along with your application].
Cancellation application requirement (CT4) Describe whether any work on the construction of the transmission line or substation has been started, and if so, describe the extent of the work.
Cancellation application requirement (CT5) If any work on the construction of the transmission line or substation has been started, describe how the site will be reclaimed.
Cancellation application requirement (CT6) Confirm that personal notification was provided to occupants, residents, landowners, Indigenous groups, and other utilities on, or directly adjacent to, the project right-of-way or location.

When complete, save a copy of this form as a PDF file and submit the file to the AUC through the eFiling System.
