

Cancellation of the Brooks Solar Farm Connection in the Brooks Area

The Solar Krafte Utilities Inc. (now Beargrass Solar Inc.) request for transmission system access to connect its approved Brooks Solar Farm (Facility; now known as Beargrass Solar) in the Brooks area has been cancelled.

BACKGROUND

The Alberta Utilities Commission (Commission) originally approved the AESO's *Brooks Solar Farm Connection Needs Identification Document* (NID) on December 18, 2024. The NID approval included the following transmission developments:

- Add one 240 kilovolt (kV) transmission line to connect the Facility to the existing Cassils 324S substation in a radial configuration.
- Modify the Cassils 324S substation, including adding one 240 kV circuit breaker.
- Add or modify associated equipment as required for the above transmission Developments

NEXT STEPS

The above developments are no longer needed. The AESO intends to apply to the Commission for cancellation of the NID approval.

Information related to the Brooks Solar Farm Connection in the Brooks Area project is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
