Re: Rescission of Approval by the Independent System Operator, operating as the Alberta Electric System Operator (the "AESO") under Section 501.3 of the ISO Rules, *Abbreviated Needs Approval Process*, (the "ANAP Rule") for Big Rock Solar Battery Project Connection – Project No. 2592 (the "Project")

On July 25, 2022, Atlantica Canada Development Company Inc. ("Market Participant"), submitted a system access service request ("SASR") to the AESO to connect its Big Rock Solar Battery Project in the High River area (AESO Planning Area 46, High River).

On October 30, 2025, the AESO approved the transmission facility project required to respond to the SASR (Project) pursuant to the ANAP Rule.

On June 2, 2026, the AESO received a request from the Market Participant to cancel the Project and related SASR. Subsequently, on June 3, 2026, the AESO cancelled the Project and removed the Project from the AESO's Project List.

Therefore, the AESO is rescinding its approval of the Project pursuant to the ANAP rule. This rescission is effective upon the signature date provided below.

Should you have any questions, please contact Luis Garrido at Luis.Garrido@aeso.ca.

Sincerely,

Signed by:
