To Registered Participants in Proceeding 790 and Other Interested Parties

Dear Stakeholder:

Re: **Invitation to Technical Meeting on Loss Factor Activities Under Section 501.10 of the ISO Rules, Transmission Loss Factors (“Loss Factor Rule”)**

As discussed in the AESO’s update on loss factor activities dated May 16, 2019, the AESO validated revisions to the loss factor calculation scripts in May and June 2019. The revised scripts were then used to calculate 2019 loss factors which were published on the AESO website on June 27, 2019.

In response to questions from the City of Medicine Hat on the 2019 loss factors, the AESO has identified a data misalignment resulting from certain files reflecting daylight saving time while all other files reflected standard time. The AESO has corrected the misalignment and is currently re-running the 2019 loss factor calculations. Corrected 2019 loss factors will be published the week of July 15-19.

The AESO invites registered participants in Proceeding 790 and other interested parties to attend a loss factors technical meeting after the corrected loss factors are published. The AESO will present information on the 2019 loss factors and other loss factor activities at the following meeting:

Time:	9:00 am to 12:00 noon
Date:	Wednesday, July 24, 2019
Location:	BP Centre Meeting Room 6006, 6th Floor, 240 – 4th Avenue SW, Calgary Note that the glass doors on the 6th floor are locked; please knock and the receptionist will unlock the door for you.
Teleconference:	Information will be provided to parties upon RSVP.
RSVP:	Provide names and titles of all participants that will attend by 5:00 pm on Monday, July 22, 2019 to Claudia Moroianu at 403-705-5311 or claudia.moroianu@aeso.ca .
Refreshments:	Coffee, juice, pastries, and fruit

Please note that the meeting is in BP Centre rather than Calgary Place. As indicated above, parties may participate by teleconference.

The subject areas to be covered during the meeting are as follows:

- overview of 2019 loss factor calculation results;
- findings from investigation of volume discrepancies in loss factor calculations;
- status update on 2020 loss factor calculations;
- status update for Module C loss factor calculations; and
- review of schedule for loss factor activities posted on AESO website.

Representatives from Teshmont Consultants LP will attend the meeting. Questions will be responded to as time permits during the meeting. The AESO does not expect to provide written responses to questions asked during the meeting.

The AESO will distribute the technical meeting presentation prior to the meeting, to parties who RSVP. The presentation will be posted on the AESO website following the meeting, at www.aeso.ca ► Grid ► Loss factors ► Stakeholder engagement ► Technical meetings.

If you have any questions regarding the meeting, please contact John Martin at 403-539-2465 or by email to john.martin@aesoc.ca.

Yours truly,

John Martin
