

December 3, 2019

To Registered Participants in Proceeding 790 and Other Interested Parties

Dear Stakeholder:

Re: **Invitation to Technical Meeting on Loss Factor Activities Under Section 501.10 of the ISO Rules, Transmission Loss Factors (“Loss Factor Rule”)**

On November 21, 2019, the AESO published loss factors for 2020, together with additional information used to establish the loss factors. On December 3, 2019, the AESO filed an application to the Alberta Utilities Commission to review Decision 790-D06-2017, which ordered the AESO to use a single settlement approach, and vary the decision by ordering the AESO to use a “pay-as-you-go” settlement approach.

The AESO invites registered participants in Proceeding 790 and other interested parties to attend a loss factors technical meeting to discuss these recent loss factor activities. The AESO will present information on the 2020 loss factors, the review and variance application, and other related activities at the following meeting:

Time:	9:00 am to 12:00 noon
Date:	Friday, December 13, 2019
Location:	Calgary Place Main Boardroom, 25th Floor, 330 – 5th Avenue SW, Calgary Note that the glass doors on the 25th floor are locked; please knock and the receptionist will unlock the door for you.
Teleconference:	Information will be provided to parties upon RSVP.
RSVP:	Provide names and titles of all participants that will attend by 5:00 pm on Wednesday, December 11, 2019 to Claudia Moroianu at 403-705-5311 or claudia.moroianu@aeso.ca .
Refreshments:	Coffee, juice, assorted breakfast items

As indicated above, parties may participate by teleconference.

The subject areas to be covered during the meeting are as follows:

- overview of 2020 loss factor calculation results;
- findings from investigation of volume discrepancies in loss factor calculations;
- status update on recalculation of 2017 and 2018 loss factor calculations;
- status update for Module C loss factor calculations;
- overview of “pay-as-you-go” review and variance application; and
- review of schedule for loss factor activities.

Representatives from Teshmont Consultants LP will attend the meeting. Questions will be responded to as time permits during the meeting. The AESO does not expect to provide written responses to questions asked during the meeting.

The AESO will distribute the technical meeting presentation prior to the meeting, to parties who RSVP. The presentation will be posted on the AESO website following the meeting, at www.aeso.ca ► Grid ► Loss factors ► Stakeholder engagement ► Technical meetings.

If you have any questions regarding the meeting, please contact John Martin at 403-539-2465 or by email to john.martin@aeso.ca.

Yours truly,

John Martin
Senior Special Projects Advisor
