Re: Alberta Electric System Operator (“AESO”) Reply to Stakeholder Comments – Proposed Amended ISO Rule – Section 501.10, *Transmission Loss Factors* (“Section 501.10”)

On October 18, 2018, the AESO issued a [Letter of Notice](#) regarding the proposed amended Section 501.10 and requesting stakeholder comments on the same.

The AESO will make amendments to the proposed Section 501.10 in response to stakeholder comments received, and will post blacklines in advance of filing its application for approval of the amendments.

AESO Replies to Market Participant Comments

Due to an administrative error, the AESO did not post written comments on November 12, 2018 as indicated in the October 18, 2018 letter of notice. However, in accordance with Section 6 of Alberta Utilities Commission (“AUC” or “Commission”) Rule 017, the AESO is posting all submissions received concurrently with the AESO replies.

The AESO’s replies to comments, including the rationale or basis for the position of the AESO that explains why certain positions were rejected or accepted, are set out in the attached Stakeholder Comment and AESO Replies Matrix.

Attachments to AESO Reply Letter

The following documents are attached:

1. [Stakeholder Comment and AESO Reply Matrices](#) on the proposed amended Section 501.10, *Transmission Loss Factors*

If you have any questions, please contact the undersigned.

Sincerely,
