Please refer back to the Consultation Letter under the “Attachments” section to view materials related to the proposed amended PRC-004-AB2-1. Please place your comments/reasons for position underneath (if any).

Alberta Reliability Standard	Market Participant Comments and/or Alternative Proposal
<b>Amended</b> The AESO is seeking comments from market participants with regard to the following matters:  <ol style="list-style-type: none"><li>Are there any requirements contained in proposed amended PRC-004-AB2-1 that are not clearly articulated? If yes, please indicate the specific section of proposed amended PRC-004-AB2-1, describe the concern and suggest alternative language.</li><li>Please provide any additional comments regarding proposed amended PRC-004-AB2-1.</li></ol>	<b>Comment # 1:</b>  <i>Please clarify the scope of “protection systems affecting the reliability of the bulk electric system”: are they the protection systems that are designed and installed to <b>protect</b> the elements of bulk electric system, or, could they be any protection systems that can <b>trip</b> (remove from service automatically) the elements of bulk electric system?</i>
