**The AESO is seeking comments from Stakeholders with regard to the following matters:**

	Questions	Stakeholder Comments
1.	Please comment on the Technical Session 1 facilitated by the AESO on Feb. 27, 2020. Was the session valuable? Was there something we could have done to make the session more helpful? Please advise and be as specific as possible.	<p>The session was valuable, it allowed stakeholders to explain their perspectives and to seek an understanding of other stakeholder perspectives.</p> <p>During the presentation portion of the session it may have been more efficient to allow presenters to present their entire presentation without interruption and address questions during the time allotted at the end of the presentations. Additionally, prior to breaking out in subgroups, all questions for understanding should have been addressed by the full group.</p> <p>It would have been more efficient to not have level -setting conversations in the sub-groups that did not involve all of the stakeholders.</p>
2.	Please comment on the <b>Technical Session 1 Summary Feb. 27 2020</b> . Is there information you felt was covered during the session that has not been represented in the summary? If yes, please advise and be as specific as possible.	The summary adequately included the information covered.

3.	<p>Please comment on the additional level-setting information provided in <b>Summary of Level-setting Information</b> document. Do you have additional clarifying questions that need to be answered to support your understanding? If yes, please be as specific as possible.</p>	No additional questions.
4.	<p>Please comment on the revised high-level principles provided in the <b>Summary of Level-setting Information</b> document. Do you have additional clarifying questions that need to be answered to support your understanding? If yes, please be as specific as possible.</p> <p>Do you have additional principles that you feel have not been represented by these high-level principles? If yes, please be as specific as possible and provide the gaps/challenges you are trying to address with the additional principles.</p>	None.
5.	Additional comments	None.

Thank you for your input. Please email your comments to: [tariffdesign@aeso.ca](mailto:tariffdesign@aeso.ca).
