The AESO is seeking comments from stakeholders on its 2020 Plan for Market-Related Initiatives.

| | Questions | Stakeholder Comments |
|----|--|--|
| 1. | Is the publication of the <i>2020 Plan for Market-Related Initiatives</i> useful to you? Would any additional information be helpful? Please be specific. | The publication is very useful to find out where the AESO will focus its attention throughout 2020 on market initiatives. It would also be beneficial to understand the opportunities for stakeholder engagement for each activity so that resource plans from Stakeholders can be determined. |
| 2. | Are there any additional market-related initiatives that in your view require the AESO's and stakeholders' attention in 2020 that are not listed in the <i>2020 Plan for Market-Related Initiatives</i> ? | Generally, after the turbulence of discussing a capacity market, a reduced number of initiatives is appreciated. To properly value the energy only market, stakeholders need some certainty on the rules in order to properly value future clearing prices in determining investment opportunities. Therefore transparent consultation and process are essential to successfully develop new generation. |
| 3. | Do you have suggested changes to the timing of initiatives in the <i>2020 Plan for Market-Related Initiatives</i> schedule? If yes, please be specific to why you would like to see the timing changed and what the suggested timing should look like. | <i>Difficult to answer this question without the AESO clarifying the input and participation that it is seeking from Stakeholders from each initiative. Since the stakeholder community resources are limited, spacing out activities for participation is required.</i> |
| 4. | Do you have any other suggestions or comments you would like to share with the AESO related to the <i>2020 Plan for Market-Related Initiatives</i> publication? | <i>It is still uncertain what document the AESO sent to the Government regarding market power mitigation. It would be appreciated for stakeholders to receive whatever paper was sent as soon as possible. Likewise it is essential that the AESO be transparent in these other initiatives and communicate in a timely fashion so that Stakeholders can understand the AESO's preferred approach.</i> |
