Re: **Comment Matrices for Set 2 of the draft ISO Rules for the Implementation of the Capacity Market and Revised Agendas for September 11 & 12 Consultation Sessions**

On August 31, 2018 the Alberta Electric System Operator (“AESO”) posted notice of the September 11 and 12, 2018 consultation sessions for Set 2 of the draft ISO rules for the implementation of the capacity market (“Set 2 rules”) along with drafts of the Set 2 rules.

Comment Matrices for Set 2

The AESO is seeking written feedback from the Market Surveillance Administrator, market participants, and other interested parties (“Stakeholders”) on the Set 2 rules.

Stakeholders may submit written comments to the AESO on each draft ISO rule using the Stakeholder Comment Matrix – Draft Proposed ISO Rule which corresponds to that rule. Please note that for the Set 2 rules and existing EAS rules, only the sections that have been amended are included in the matrices.

The AESO will consider written comments in finalizing the draft Set 2 rules, as well as feedback received during the September 11 and 12, 2018 consultation sessions. Stakeholders should ensure that comments provided represent all interests within their organization.

The deadline for Stakeholders to provide comments is September 28, 2018. Comments must be sent to rules_comments@aeso.ca, and the scope of feedback is limited to the draft Set 2 rules. Adherence to deadlines is essential to the integrity of the comment process, and as such, the AESO may choose not to consider any Stakeholder comments received after the deadline.

The AESO will publish all Stakeholder comments, received by the deadline, on or before October 5, 2018. The AESO will not reply to comments received, but will consider these comments in developing revised drafts of the Set 2 rules, which will be posted for stakeholder comment on November 16, 2018.

Revised Agendas for Set 2 Consultation Sessions

The AESO has revised the agendas for the September 11 and 12, 2018 Set 2 consultation sessions as follows:
