Re: **Notice of Technical Information Session regarding the Capacity Market Rules**

The Alberta Electric System Operator (“AESO”) is posting notice of a technical information session to discuss the mechanics and implementation details of certain capacity market rules based on stakeholder feedback

The AESO expects the following topics to be covered during the session:

- Load participation
- Market clearing process
- UCAP regression approach
- Asset substitution
- Delisting (costs)
- Energy mitigation of non-thermal generating assets capable of storing energy

Stakeholders may suggest additional topics by sending an email to rules_comments@aeso.ca on or before October 26, 2018. The AESO will consider these requests and endeavor to accommodate them where possible, and an agenda will be circulated in advance of the session.

The proposed capacity market rules are available on the [AESO website](#).

Invitation to Participate in Information Session

Time: 9:00 a.m. - 12:00 p.m.

Date: November 1, 2018

Location: This session is being presented as a webinar only

This information session will be recorded and posted on the [Implementation of the Capacity Market](#) page on the AESO website for those unable to participate in the technical session.

RSVP to Information Session

Please [click here](#) to register for the webinar by October 29, 2018.
