Re: **Late Stakeholder Comments on Letter of Notice for Development on New ISO Rule – Section 502.10, Revenue Metering Technical Requirements (“Section 502.10”)**

On December 20, 2018, the Alberta Electric System Operator (“AESO”) received late written comments on the proposed new Section 502.10 from EPCOR

The following is hyperlinked to provide assistance in directing market participants to these written comments.

The AESO is of the view that adherence to deadlines is an integral part of a fair and efficient ISO rules comment process. Stakeholder comments received after a specified deadline are considered at the discretion of the AESO.
