Re: Information Session on the ISO Tariff Design for Allocating Costs for the Capacity Market Cost and Bulk and Regional Transmission: Invitation for Comments

The AESO invites stakeholders to provide their comments about the information presented in the AESO's [Industry Update](#) at the information session hosted by the AESO on March 13, 2019 regarding the ISO tariff development for allocating costs of the capacity market and of bulk and regional transmission.

Please use the [Stakeholder Comment Matrix – March 13, 2019 Industry Update](#) when submitting comments to the AESO. Only written comments will be considered. Stakeholders should ensure that comments provided represent all interests within their organization. All comments will be sent to the AESO's Tariff Design Advisory Group for consideration and will assist the AESO in developing its tariff filings for allocating the costs of the capacity market and for bulk and regional transmission. The scope of comments is limited to tariff design for the capacity market and bulk and regional transmission cost allocation. Any comments received that are outside of this scope will not be considered by the AESO.

Please note that the AESO will post all feedback "as received" on www.aeso.ca including the names of the parties submitting the comment matrix.

Stakeholders are to submit their completed comment matrices to tariffdesign@aeso.ca no later than 3:00 p.m. on Wednesday, April 10, 2019. Adherence to the deadlines is essential to the integrity and timelines for the development of the ISO tariff filings. As such, any stakeholder comments received after April 10, 2019 may not be published or otherwise considered by the AESO.

Attachments to the Invitation for Comments
