To: Market Surveillance Administrator, Market Participants and Other Interested Parties

Re: **Invitation for Comments on the Definitions for Set 1, 2 and 3 of the draft ISO Rules for the Implementation of the Capacity Market**

The Alberta Electric System Operator (“AESO”) is seeking written feedback from the Market Surveillance Administrator, market participants, and other interested parties (“Stakeholders”) on the draft definitions for the Set 1, Set 2 and Set 3 rules.

The AESO posted invitations to provide written comments on the draft ISO rules for the implementation of the capacity market on August 13, 2018 and September 7, 2018. It has come to the AESO’s attention that, while the draft definitions were published on the AESO’s website, comment matrices for the draft definitions were not posted due to an inadvertent error.

Stakeholders may submit written comments to the AESO on each draft definition using the Stakeholder Comment Matrix for the draft definitions for each set of ISO rules. The AESO will consider written comments in finalizing the definitions, as well as feedback received during the August 15, 2018 and September 13, 14 and 15, 2018 consultation sessions. Stakeholders should ensure that comments provided represent all interests within their organization.

The deadline for Stakeholders to provide comments is October 9, 2018. Comments must be sent to [rules\\_comments@aeso.ca](mailto:rules_comments@aeso.ca), and the scope of feedback is limited to the definitions as outlined above. Adherence to deadlines is essential to the integrity of the comment process, and as such, the AESO may choose not to consider any Stakeholder comments received after the deadline.

The AESO will publish all Stakeholder comments, received by the deadline, on or before October 15, 2018. The AESO will not reply to comments received, but will consider these comments in developing revised drafts of the definitions which will be posted for stakeholder comment on October 22, 2018.
