

# Sunset Solar Project Connection Stakeholder Update – Project Cancellation

July 2019

## Project Cancellation

The purpose of this update is to inform stakeholders that the Sunset Solar Inc. request for system access service to connect its proposed Sunset Solar Project (Facility) in the hamlet of Grassy Lake area has been cancelled.

As a result, the Alberta Electric System Operator (AESO) no longer intends to apply to the Alberta Utilities Commission for approval of the need for the following transmission development:

- Add a 138 kV transmission line to connect the Facility to the existing 138 kV transmission line 612L.
- Add or modify associated equipment as required for the above transmission developments.

## Project Background

In April 2018, AltaLink Management Ltd. began distributing an information package that included the AESO Need Overview, *Need for the Sunset Solar Project Connection in the hamlet of Grassy Lake area*. In addition, the AESO posted the Need Overview to its project-specific webpage <https://www.aeso.ca/grid/projects/sunset-solar-project-connection/>

On June 14, 2019, the Sunset Solar Inc. system access service request to connect the Facility was cancelled.

## Who is the AESO?

The AESO plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views. If you have any questions or comments, please contact us directly.

## For Further Information

Please contact the AESO through [stakeholder.relations@aeso.ca](mailto:stakeholder.relations@aeso.ca) or call our stakeholder relations toll-free line at 1-888-866-2959 if you have any questions.
