Re: **Re-Posting of Revised Proposed New Section 206.7, *Capacity Market Mitigation* (“Section 206.7”) and Section 206.5, *Forward Period Milestone Assessment* (“Section 206.5”)**

On January 23 and 24, 2019, the AESO posted revised Capacity Market Rules and Definitions to its website, along with associated blacklines.

The AESO has determined that corrections to Section 206.7, *Capacity Market Mitigation* are required to clarify the provisions regarding notifications to a capacity market participant that an asset has been mitigated.

Additionally, the AESO has determined that a revision to Section 206.5, *Forward Period Milestone Assessment* will be made in response to stakeholder comments

Accordingly, the AESO is re-posting Section 206.5 and Section 206.7, along with blacklines between the revised versions of these ISO rules and the version posted on January 23, 2019.

Yours truly,

Pauline McLean

Director, Legal & Regulatory Affairs & Associate General Counsel
