

ISO Rules

Part 200 Markets

Division 201 General

Section 201.5 Energy Market Block Allocation

External Consultation Draft
August 31, 2018

Applicability

1 Section 201.5 applies to:

- (a) the **ISO**

when managing the energy market and **dispatch down service**.

Requirements

Operating Block Allocation

2(1) The **ISO** must allocate to each **pool participant** 1 **pool ID** per **pool asset**.

(2) The **ISO** must allocate to the **pool participant** for each generating **source asset** 7 **operating blocks** for energy and 1 **operating block** for **dispatch down service**.

(3) The **ISO** must upon request of the **pool participant**, allocate to the **pool participant** for each load **sink asset** 7 **operating blocks** for energy.

(4) The **ISO** must allocate to the **pool participant** for each import asset either:

- (a) 1 **operating block** for energy with a \$0.00 **offer** price; or
- (b) 7 **operating blocks** for energy, such that the **offer** price may be greater than or equal to \$0.01 per MWh and less than or equal to \$999.99 per MWh.

(5) The **ISO** must allocate to the **pool participant** for each export asset either:

- (a) 1 **operating block** for energy with a \$999.99 **bid** price; or
- (b) 7 **operating blocks** for energy, such that the **bid** price may be greater than or equal to \$0.00 and less than or equal to \$999.98.

Revision History

Effective	Description
xxxx-xx-xx	Revised title of rule and facilitated the allocation of 7 operating blocks to an import or export asset.
2013-01-08	Initial release
