

ISO Rules

Part 200 Markets

Division 201 General

Section 201.5 Energy Market Block Allocation

External Consultation Draft
August 31, 2018

Applicability

1 Section 201.5 applies to:

- (a) the **ISO**

when managing the energy market and **dispatch down service**.

Requirements

Operating Block Allocation

2(1) The **ISO** must allocate to each **pool participant** ~~one (1)~~ **pool ID** per **pool asset**.

(2) The **ISO** must allocate to the pool participant for each generating source asset: 7 operating blocks for energy and 1 operating block for dispatch down service.

~~(a) that is not an import, seven (7) operating blocks for energy and one (1) operating block for dispatch down service; and~~

~~(b) that is an import, one (1) operating block for energy with a zero dollar (\$0.00) offer price.~~

(3) The **ISO** must upon request of the pool participant, allocate to the pool participant for allocate to each load sink asset: 7 operating blocks for energy.

~~(a) that is not an export, seven (7) operating blocks for energy; and~~

~~(b) that is an export, one (1) operating block for energy with a nine hundred and ninety-nine dollar and ninety-nine cent (\$999.99) bid price.~~

(4) The ISO must allocate to the pool participant for each import asset either:

(a) 1 operating block for energy with a \$0.00 offer price; or

(b) 7 operating blocks for energy, such that the offer price may be greater than or equal to \$0.01 per MWh and less than or equal to \$999.99 per MWh.

(5) The ISO must allocate to the pool participant for each export asset either:

(a) 1 operating block for energy with a \$999.99 bid price; or

(b) 7 operating blocks for energy, such that the bid price may be greater than or equal to \$0.00 and less than or equal to \$999.98.

Revision History

Effective	Description
<u>xxxx-xx-xx</u>	<u>Revised title of rule and facilitated the allocation of 7 operating blocks to an import or export asset.</u>
