

ISO Rules

Part 200 Markets

Division 203 Energy Market

Section 203.1 Offers and Bids for Energy

External Consultation Draft October 22, 2018

Applicability

- 1 Section 203.1 applies to:
- (a) a **pool participant**; ~~and~~
 - ~~(b) the ISO,~~
- ~~when participating in the energy market;~~ and
- (b) the ISO.

Requirements

Submission Method and Timing

- 2(1) A **pool participant** may only submit an **offer** or a **bid** to the **power pool** in respect to an active **pool asset** listed opposite their name in the **ISO** list of **pool assets**.
- (2) A **pool participant** submitting an **offer** or **bid** for a generating source asset or load sink asset, respectively, must submit such **offer** or **bid**:
- (a) before 12:00 hours on the **day** before the **day** that the **offer** or **bid** is effective, subject to any extension of time granted pursuant to subsection 3 of section 201.4 of the **ISO rules**, *Submission Methods and Coordination of Submissions*; and
 - (b) no earlier than 00:00, ~~seven (hours, 7) days~~ prior to the **day** that the **offer** or **bid** is effective.

~~Obligation~~ (3) A **pool participant** submitting an **offer** or **bid** for an import asset or export asset, respectively, must submit such **offer** or **bid**:

- (a) no later than 2 hours prior to the start of the **settlement interval**; and
- (b) no earlier than 00:00 hours, 7 **days** prior to the **day** that the **offer** or **bid** is effective.

Must-Offer and Offer Content

May-Offer

3(1) A **pool participant** must, submit offers in the energy market for each **settlement interval**, ~~submit an offer~~ for each of its **pool assets**, that are:

- (a) generating source assets with a **maximum capability** of ~~five (5)~~ MW or greater;

~~(2) A **pool participant** must not, notwithstanding subsection 3(1), submit an offer for:~~

- (b) (load sink assets subject to a) — any of its **source assets** **capacity commitment** providing **guaranteed load reduction**;
- (c) **load sink assets** subject to a **capacity commitment** providing **firm consumption level** with a **maximum capability** of 5 MW or greater; or
- (d) import assets.

(2) A **pool participant** may submit **offers** in the energy market, for any of its **pool assets** that are:

ISO Rules

Part 200 Markets

Division 203 Energy Market

Section 203.1 Offers and Bids for Energy

- (a) generating source assets subject to a capacity commitment with a maximum capability greater than or equal to 1 MW and less than five (5) MW; and/or
- (b) (b) capacity load sink assets subject to a capacity commitment providing firm consumption level with a maximum capability greater than or equal to 1 MW and less than 5 MW.

(3) A pool participant that chooses to submit offers in accordance with subsection 3(2) must notify the ISO, in the manner the ISO specifies.

(4) The ISO must, upon receiving a notification in accordance with subsection 3(3), provide the pool participant with the ability to submit offers.

(5) A pool participant with a pool asset that is provided the ability to submit offers in accordance with subsection 3(4) must submit offers in the energy market for each settlement interval.

(6) Notwithstanding subsections 3(1) and 3(5), a pool participant must not submit offers for energy that is committed under a contract for long-term resource adequacy standard threshold actions referred to in Section 202.6 of the ISO rules, Adequacy of Supply.

(3) Offer Content

4(1) a pool participant must include in each operating block in an offer;

(a) a price in \$/MWh to the nearest cent per MWh which:

(b)(a) in the case of source asset that is not an import asset, is which is greater than or equal to zero dollars (\$) per MWh and less than one thousand dollars (\$1000) per MWh; and

(i) in the case of an import, is zero dollars (\$0);

(c)(b) a quantity in MW; and

(d)(c) an indication of whether the operating block is a flexible block or an inflexible block; and

(2) A pool participant that submits an offer must also include in the offer submit the minimum stable generation for the generating source asset.

(43) A pool participant that submits an offer must ensure that:

(a) the cumulative total MW, as entered for the highest priced operating block in the offer for the settlement interval, equals the maximum capability of the source pool asset; and

(b) the minimum stable generation submitted for the generating source asset does not exceed the MW of the operating block with the lowest offer price for the source asset and a quantity greater than zero (0) MW, including when submitted as part of a restatement under subsection 5(2) of section 203.43 of the ISO rules, Energy Restatements.

Offers During Commissioning and Testing

45 Notwithstanding subsection ~~3(34)(1)~~(a)(i), a pool participant that submits an offer for a generating source asset which is undergoing commissioning and testing under section 505.3 of the ISO rules, *Coordinating Synchronization, Commissioning, WECC Testing and Ancillary Services Testing* must, until the ISO otherwise authorizes in writing, submit a price for the offer of ~~zero dollars (\$0)-\$0.00~~.

Available Capability

ISO Rules

Part 200 Markets

Division 203 Energy Market

Section 203.1 Offers and Bids for Energy

56 A **pool participant** that submits an **offer** must also submit the **available capability**, in MW, ~~for each **source asset** which **where**:~~

(a) such **available capability** must equal the **maximum capability** of the generating source asset or load sink asset, unless the **pool participant** has submitted an **acceptable operational reason** with the ~~offer~~; or

(b) such **available capability** for an import asset must:

(i) if the import asset is subject to a **capacity commitment**, be greater than or equal to the **capacity commitment** associated with the import asset, unless the **pool participant** has submitted an **acceptable operational reason** with the **offer**; or

(ii) the import asset is not subject to a **capacity commitment**, greater than or equal to 0 MW.

Operating Constraints for Offers

67(1) A **pool participant** that submits an **offer** must also submit the following operating constraints:

(a) for a generating **source asset** or a **load sink asset**, a **ramp rate**; and

(b) for a generating **source asset**, the initial start-up time.

(2) A **pool participant** must submit to the **ISO** any changes to the operating constraints of a **source asset** or a **load sink asset** as soon as reasonably practicable.

Option to Bid ~~and Bid Content~~

~~**7(1)8**~~ A **pool participant** may, for a **settlement interval**, submit a **bid** for any of its **sink assets**.

Bid Content ~~(2)~~

9(1) A **pool participant** must include in each **operating block** in a **bid**:

(a) a price in \$/MWh to the nearest cent per MWh which: is greater than or equal to \$0.00 per MWh and less than or equal to \$999.99 per MWh; and

(i) in the case of a **sink asset** that is not an export asset, is greater than or equal to zero dollars (\$0) per MWh and less than one thousand dollars (\$1000) per MWh; and

(ii) in the case of export, is nine hundred and ninety-nine dollars and ninety-nine cents (\$999.99); and

(b) a quantity in MW.

~~**(32)**~~ A **pool participant** that submits a **bid** must ensure that the total MW in the **bid** do not exceed the peak load of the load sink asset.

Standing Submission

~~**810(1)**~~ A **pool participant** may create a standing submission, being an **offer** or **bid** that remains in place until the **pool participant** changes it.

(2) The **ISO** must use the data contained in the standing submission for the **pool asset** for the **day** following the **forecast scheduling period**.

Section 203.1 Offers and Bids for Energy

Validation

911 The **ISO** must, as soon as reasonably practicable following the receipt of an **offer** or **bid**, send to the **pool participant** who submitted the **offer** or **bid**:

- (a) acknowledgment of receipt of the **offer** or **bid**;
- (b) notification that the **offer** or **bid** is either valid or invalid with respect to this section 203.1 of the **ISO rules**; and
- (c) if an **offer** or **bid** is invalid, an explanation as to why the **offer** or **bid** is not accepted.

Revision History

<u>EffectiveDate</u>	<u>Description</u>
2013-01-08 <u>xxxx-xx-xx</u>	Initial Release <u>Revised to include requirements for load, imports, and assets subject to a capacity commitment.</u>
2013-12-20	Updated subsections 3(1) and 3(2) to clarify offers in the context of capacity that is committed under a contract for long term adequacy.
<u>2013-01-08</u>	<u>Initial Release</u>
