

ISO Rules

Part 200 Markets

Division 203 Energy Market

Section 203.2 Issuing Dispatches for Energy

External Consultation Draft
October 22, 2018

Applicability

- 1 Section 203.2 applies to:
 - (a) the **ISO**when operating the energy market.

Requirements

Dispatch Considerations

- 2 During normal system conditions, the **ISO** must, when a change in demand or supply requires a **dispatch** in order to balance the system, issue **dispatches** for the next **operating block** in the **merit order**, subject to any restrictions created by **inflexible blocks**, or limits referenced in Section 303.2 of the **ISO rules**, *Available Transfer Capability*.

Revision History

Date	Description
xxxx-xx-xx	Added reference to section 303.2.
